

NJC Pay Deal for 2019 still under negotiations

Although the new pay spine for 2019 has been nationally agreed, how that is applied to the grading structure in your workplace is still to be determined.

At present UNISON is negotiating with Sandwell Council on how the grading structure for 2019 will work. UNISON has approached Academies and other organisations such as SLT and Serco to see how it will be applied.

This work is on-going and we are liaising with the Region and national office to make sure the 2019 implementation of the pay award will be equality proof.

When there are any developments we will share them on our website as soon as possible. www.sandwellunison.co.uk
